**208N Seminar Room, North House
Munk Centre for International Studies
1 Devonshire Place
Please register at events@powi.ca**

**Lunch will be provided
BOOK EARLY! SPACE IS LIMITED**

Hot Air, a collaborative work between Jeffrey Simpson, National Globe and Mail Columnist, Mark Jaccard and Nic Rivers (both from Simon Fraser University), lays out in convincing and easily understandable terms the few simple policies that Canada must adopt right away in order to significantly reduce greenhouse gas emissions over the next few decades with minimal negative effects.

With evidence from other countries that are successfully addressing climate change, *Hot Air* shows why these are the only policies that will work — and why this is a matter of life and death for all of us.
